We Care About Good Education

FOREWORD

While it is true that the students in the classroom constitute the reason for the existence of the faculty, it is only the faculty member himself in that very classroom who is competent in his field, who strives for further academic growth and personal development, and who contributes his share to the University community, who can ensure the meaningful and satisfactory presentation and completion of the subject to the student, to the institution and, certainly, to himself. It is only when the faculty member provides mental stimulation and makes the students aware of their existing competence and intellectual potential that the students are in turn motivated to improve upon their academic progress.

This manual covers a variety of subjects relevant to both the organization and administrative aspects of faculty life at the University. While this manual attempted to answer the questions that faculty members often ask, experience has shown that the "actual doing" is a very different proposition from reading about it. Faculty members are therefore encouraged to maintain frequent contact with the academic officers of the division as we are certainly most interested in "how you are getting along."

While every effort has been made to insure the accuracy, consistency, and completeness of materials available at the time copy is made of this manual, the University reserves the right to make changes at the time during the school year without prior notice. Such changes take effect whenever the University deems them necessary.

VICENTE K. FABELLA
President

HISTORY OF THE UNIVERSITY

Jose Rizal University was originally founded as the Far Eastern College School of Accounts, Commerce, and Finance in 1919 as a non-stock non-profit non-sectarian private educational institution to blaze the trail in the field of commercial education. Its founder was the late Vicente Fabella; the first Filipino certified public accountant. The name was subsequently changed to Jose Rizal College in 1922, in honor of the great Filipino patriot and martyr who tried to awaken his countrymen in his writings to the need for economic self-sufficiency and independence.

The University was first located at R. Hidalgo Street in Quiapo, Manila. It offered the four-year bachelor's degree course in Commerce as well as the high school course. It has continued to provide educational services since 1919 except during the Japanese occupation of the Philippines in World War II when it remained closed as a gesture of protest in spite of repeated attempts by the occupation authorities at the time to have it opened.

The University reopened after the end of the war in 1945 and, faced with the need for expanded facilities, transferred in 1950 to its present site in Mandaluyong City, then part of the province of Rizal and subsequently Metro Manila.

The University is a founding member of the Philippine Association of Colleges and Universities (PACU) in 1932, of the Philippine Association of Collegiate Schools of Business (PACSB) in 1962, of the Private Education Retirement Annuity Association (PERAA) in 1974, and Philippine Association of Personnel Management in Private Schools (PAPMIPS) in 1997.

In its 100 years of existence, the University has achieved the singular distinction of having produced a remarkable number of successful graduates who have enjoyed the respect of the nation. Among them are included a President of the Philippines, a justice of the Supreme Court, several members of the legislature and of the Cabinet, some ambassadors, no less than twenty heads of banks and financial corporations, several heads of educational institutions, acknowledged leaders in the various fields of industry, commerce, agriculture and trade, and armed forces officers of general rank. It can rightfully claim that it has contributed its share in the molding of character and training of the successful graduates.

The careful combination of proven competence in instruction plus valuable experience in the practice of the profession has been the guide of the University in the selection of faculty members. This policy, combined with carefully planned programs in the various disciplines and adequate facilities, has formed the basis for the impressive educational record of the University.

1. INTRODUCTION

1.1 PURPOSE AND SCOPE

The purpose of this Handbook is to inform all elementary school faculty members of their duties, responsibilities, norms of conduct and benefits to enable them to discharge their functions with greater efficiency and understanding

1.2 SCOPE

This Handbook primarily contains excerpts from General Manual and applies to all faculty of the Elementary School Division and so written that while it forms part of General Manual, it can also stand alone as the Elementary School Faculty Handbook.

The provisions of this Handbook are not exclusive as memoranda and circulars are issued by the University, from time to time, for the information and guidance of the faculty.

1.3 DEFINITION

An elementary school faculty member is defined as one who has been extended a written appointment to teach at least one subject with student credit for a period of not less than one school year. The person ceases to be considered as a member of the faculty if no appointment is extended the following school year, and the person does not have tenure or is dismissed for cause or terminated for redundancy.

2. ORGANIZATION AND ADMINISTRATION OF THE UNIVERSITY

The ultimate authority of the University is vested in a Board of Trustees, whose general policies are administered by the President. The units of the University are classified into five main groups. A brief description of some of the more important offices follows.

2.1. THE BOARD OF TRUSTEES

The Board of Trustees, consisting of a chairman and four other members, bears full responsibility for the University as a corporate entity. It formulates and determines such general policies as may be deemed necessary for the administration and development of the University.

2.2 THE PRESIDENT

The President is the chief executive of the University and is ultimately responsible for all its activities. In this task, he is assisted by the Vice Presidents, who exercise all the authority and bear the responsibility of the President in the absence of the President. The Office of the President also supervises the Athletics Office, Marketing and Communications Office, and the Alumni Office.

2.3 THE ACADEMIC AFFAIRS GROUP

The Academic Affairs Group is composed of the Graduate School, Law School, five Colleges, the Senior High School, the Junior High School, the Elementary School, Research Office, the Guidance and Testing Office, the Student Development Office, and the Community Development Office. The group is headed by the Vice President for Academic Affairs.

2.4 THE FINANCIAL AFFAIRS GROUP

The Financial Affairs group is composed of the Treasury Office, Budget and Payroll Office, and the Accounting Office. The group is supervised by the Vice President for Financial Affairs.

2.5 THE ADMINISTRATIVE AFFAIRS GROUP

The Administrative Affairs Group is composed of the Administrative and Human Resource Office, Engineering and Maintenance Office, and the Medical and Dental Clinic. The Vice President for Administrative Affairs leads the group.

2.6 THE INFORMATION SYSTEMS GROUP

The Information Systems group is composed of the Information Technology Office, Registrar's Office, and the University Library. The group is managed by the Vice President for Information Systems.

2.7 THE QUALITY LINKAGES, AND TECHNOLOGY ENABLED LEARNING GROUP

The Quality, Linkages, and Technology Enabled Learning Group is composed of the Quality Management Office, International Affairs Office, and Institute of Technology Based Learning Office. The group is headed by the Vice President for Quality, Linkages, and Technology-Enabled Learning.

3. THE ELEMENTARY SCHOOL DIVISION

The Elementary School Division is an independent academic unit, under the supervision and control of the Principal, who is responsible to the Vice President for Academic Affairs and ultimately to the President of the University. The Principal is assisted by one or more assistant heads, with line authority, called Assistant Principals. The major areas of learning in the division are placed under the supervision of grade-level Chairs.

3.1 THE PRINCIPAL OF THE ELEMENTARY SCHOOL DIVISION

The Principal is the chief academic officer of the Elementary School Division and is directly responsible to the VPAC for all academic affairs and acts as his chief adviser on academic matters.

The Principal's main function is organizing, implementing, evaluating, and controlling the programs, projects, and activities of the academic affairs of the Elementary School Division. He shall be responsible for the strategic positioning and attainment of strategic goals of the Elementary School Division on student quality measures, academic performance, faculty quality initiatives, and the process of program accreditation/quality assurance.

3.2 THE ASSISTANT PRINCIPAL

The Elementary School Principal shall be assisted by one or more Assistant Principals as may be necessary to effectively and efficiently carry out the programs of the Elementary School. In general, the Assistant Principals shall assume and carry out such responsibilities and tasks as may be assigned by the Principal.

An important element is to ensure that there is a University academic official on duty on specific days and hours, known to the students in advance, and while elementary school classes are in session.

3.3 GRADE LEVEL CHAIRS

Grade Level Chairs are supervisory faculty whose tasks are to supervise the work of faculty under their responsibility and to ensure that the faculty members undertake their works efficiently and effectively. There is usually one Chair assigned for each curriculum year in the elementary school, for a total of six-grade level chairs. In addition, Chairs are primarily responsible for determining the relative quality of work done by the faculty under their supervision.

3.4 COMMITTEES

In addition to the line relationships presented, committees may be organized on an ad hoc or permanent basis by the Principal, at his direction and as the need arises.

4. PROFESSIONAL RESPONSIBILITIES

4.1 GENERAL RESPONSIBILITIES

The faculty shall always keep in mind his duties and responsibilities to (a) students and their parents, (b) to the honored teaching profession of which he is part, and (c) the general community which is the ultimate beneficiary of the teaching-learning process.

4.2 ACADEMIC FREEDOM

The faculty member shall be entitled to full freedom to research and the publication of the results, subject to the adequate performance of his other academic duties; but research for pecuniary return shall be based upon an understanding with the University. Publication in this context does not mean the right to demand publication in any periodical or journal of the University, but elsewhere outside the University.

While the University recognizes and upholds academic freedom of faculty members, such freedom shall not be used by faculty members to channel the thoughts of students to such policies, beliefs, opinions, and teachings which are contrary to the public good and moral or violative of duly constituted authorities. Academic freedom does not mean academic license.

The faculty member shall be entitled to freedom in the classroom in discussing and teaching his subject, but he should be careful not to introduce into his controversial teaching matter which has no relation to his subject, and he should consider the general necessity of adapting all instruction to the needs of immature students. No faculty member may claim as his right the privilege of discussing in his classroom controversial topics outside of his own field of study.

4.3 ACADEMIC GUIDANCE OF STUDENTS

Every faculty member is expected to guide students in a wholesome environment and in the adoption of habits that would improve their character and personality. While he should be sympathetic to the needs and deficiencies of students, nevertheless he should seek to instill discipline and respect for authority.

4.4 PROFESSIONAL IMPROVEMENT

Faculty members shall be encouraged to broaden their cultural outlook, deepen their professional interest, keep up-to-date on modern techniques in teaching, pursue such studies and endeavor to attend conferences, conventions, seminars, meetings, forum and workshops which will tend to improve their efficiency and mastery of their disciplines.

They should, at all times, be imbued with the spirit of professional loyalty, confidence, and faith in one another, self-sacrifice for the common good and cheerful cooperation.

4.4.1 Faculty Development Plan (FDP)

The Principal shall come up with an FDP based on the developmental needs of his/her faculty members as identified in their performance appraisals (PA) instruments from the previous school year, as well as new skills and competencies that may be required of new program offerings. All FDP shall be prepared using the approved FDP instrument template. All FDP for the ensuing school year shall be submitted to AHR preferably on or before April 15 of the year for presentation to and approval by the University President.

Membership in Professional Organization. Faculty members shall engage extensively in professional activities aimed at personal improvement, efficiency, and competence in their respective field of specialization. They shall be encouraged to seek membership in all such desirable professional and technical societies or associations as may have a direct relation to their teaching progression and to actively participate and contribute their knowledge thereto.

In-service Training. From time to time, especially during the summer break, the Division arranges intensive seminars that involve both pedagogical techniques and latest developments in specific disciplines that may be facilitated by area/department/ grade level chairs, faculty or invited recognized experts in those areas of knowledge which would be useful to the faculty. These seminars shall involve both pedagogical techniques and latest developments in specific disciplines, and all expenses involved in such seminars shall be borne by the University. In certain cases, limitation in the number of participants may be imposed. A mentoring program is

conducted in which grade level chairs share their expertise with their faculty as part of these in-house training programs.

Attendance in Seminars, Conferences, and Similar Training Programs. Faculty members shall be encouraged to attend technical conferences, meetings, seminars, and the like. Depending upon the subject matter involved, the University may decide if it is sufficiently important to underwrite the participation of selected faculty members to such affairs. An echo seminar shall be conducted within the year. This echo seminar shall form part of the annual clearance requirements. The expenses incurred by the faculty appointed to represent the University to such training programs and conferences shall be shouldered by the University. A written report of the proceedings is subsequently required for submission to AHR as a minimum requirement for liquidation or reimbursement of expenses.

No requests for attendance to seminars, workshops, conferences and/or conventions shall be endorsed by AHR for approval by the President without an approved FDP. Exemptions shall only be allowed on meritorious and on a case-to-case basis.

The faculty who desires to attend a specific conference may apply for University assistance, which shall then be decided on a case-by-case basis. In any case, faculty members shall obtain the written authorization of the Principal prior to the affair if they expect University assistance; such authorization shall not be given after the affair.

Concurrent Enrolment in Other Institutions. The faculty may wish to enrol in graduate studies in any HEI at the same time that he is teaching in the University. In such cases, every effort shall be made by the faculty to schedule their graduate studies outside of teaching hours. Faculty members shall also be encouraged to do graduate work during the summer vacation periods.

4.5 RESEARCH AND PUBLICATIONS

Faculty members shall undertake research as part of their function. Research is one of the trifocal mandates of higher education institutions, not only in pursuit of academic excellence but also in addressing the interests of the larger society.

Research covers all disciplines and continuously evolve. It is both a systematic and scientific extension, as well as a practical application of knowledge through careful and appropriate investigation. It involves basic, applied, and operational studies. Faculty members shall adhere to the standards of the JRU Code of Research Ethics.

Research in the University shall be overseen by the Research Office (RSH), assisted by the Research Committee and the University Ethics Committee. The RSH shall serve as the depository and monitoring office of all research contracts, research outputs, and other relevant research database, documents and other properties of the University.

In close coordination with the Deans, RSH shall monitor compliance of all research contracts by parties concerned, as well as the submission of research outputs.

Faculty shall be entitled to incentives for their researches. The classification and type of the incentives shall be recommended by the Research Director and endorsed by the Vice President for Academic Affairs (VPAC) for the approval of the University President. An honorarium shall be given to researchers for approved research. The initial payment will be released upon the approval of the research

proposal, and the final payment is released upon submission of the final research output. Researchers who have not completed the approved research on the agreed dates shall be required to return the initial payment. Research projects which have been accepted for presentation in local, national, and international conferences or seminars may be given financial support.

Faculty members are encouraged to submit scholarly work for publication in national and international indexed journals. These serve as a mark of distinction and a gauge of their professional competence. The University may assist in the publication of scholarly work depending upon the nature and quality of its contents. The University shall also consider proposals for the preparation of textbooks, workbooks, and other instructional materials.

The Journal of Business, Education, and Law (BEL Journal) is a professional publication dedicated to the active application and dissemination of scholarly research in the interrelated fields of business, education, and law. It shall be published by RSH at least once a year. While it is expected that more advanced contributions come from the Graduate School and Law faculty members from other divisions shall be encouraged to submit contributions as well.

Publications in the University shall be overseen by the Research Office.

4.6 CURRICULUM DEVELOPMENT, REVIEW AND VALIDATION

Faculty members shall participate in curriculum development, review, and validation in their respective areas as part of their function. Review of the existing programs in the K to 12 shall be based on the changes and adjustments that will be implemented by the Department of Education. However, by virtue of continuous curricular improvements and upgrading as a result of the University's voluntary accreditation, the Elementary School Division may review its existing program to ensure and maintain the high-quality standards.

4.7 SCHOOL FUNCTIONS

Faculty members shall attend official University affairs or functions where attendance is needed. These include, but not limited to, the following:

4.7.1 Convocations

From time to time, distinguished persons are invited to speak before the student body on some topics of current interest; in such cases, classes are usually suspended, but faculty members handling the affected classes are given credit just the same. Faculty members affected by such class dismissals are expected to attend the convocations held.

4.7.2 University Week

The founding of the University is celebrated annually, which has become traditionally known as the "University Week." The celebrations are held in February and usually cover four days, one for each division, and the last day or Sunday is reserved for the Alumni Homecoming.

All faculty members are required to be present during the University Week festivities.

4.7.3 Commencement Exercises

The academic divisions hold separate commencement exercises during the same week. All faculty members are required to be present during the commencement exercises.

4.7.4 NCAA Athletic Events

The University is a member of the National Collegiate Athletic Association (NCAA). Faculty members are encouraged to support the JRU team. Within reasonable limits, faculty members may secure tickets for all NCAA events. Faculty members may be admitted free of charge to any, and all athletic events authorized by the University and held in the campus unless otherwise specified.

4.8 PUBLIC RELATIONS

Parents are welcome at school and should be treated with the utmost consideration. Faculty members and school officials shall maintain cordial relations with parents of students, and conduct should be such as to merit the confidence and respect of the parents. They shall exercise the proper combination of candor and tact in pointing out to parents the students' deficiencies which may be unknown or overlooked by parents, and to seek their cooperation for the proper guidance and improvement of the students.

5. INSTRUCTIONAL PROCEDURES

5.1 TEACHING ASSIGNMENTS

Teaching assignments for the school year are always given in writing and in duplicate copies by the Principal to the individual faculty member. The assignment shall state the number of hours, subjects, and other information necessary and useful to the faculty member. The teaching assignment is received by the faculty member, and the duplicate is returned to the Principal. An Elementary School faculty shall render no more than 360 minutes/day of actual classroom teaching.

5.1.1 Teaching Assignments and Working Hours

A distinction should be made between teaching assignments and working hours. Teaching assignments refer to the time spent in classrooms engaged in instructing students (sometimes mentioned and measured as "contact hours").

Working hours, on the other hand, refer to the daily amount of time that the faculty member may be expected to be present in school, where total time should not exceed eight hours of working day. Considering that some of the work (such as the correction of papers) which a teacher is expected to undertake could be done in location other than the school itself, the University is not insistent on a strict observance of eight hours a day in school, but nevertheless will remain the sole arbiter of what could be considered acceptable work for the school done elsewhere.

5.2 CLASS SCHEDULES

Elementary school students are classified into Kindergarten and then Grades 1 through 6. Each grade is divided into sections, a teacher being assigned to each section. All sections are under the Grade Level Chair responsible for coordinating subject coverage according to the lesson plans.

Classes are held Mondays through Fridays, in accordance with the following schedules for the different curriculum grades:

For kindergarten classes, the class days are three hours long with separate sessions in the morning and in the afternoon. Morning classes are held from 8:00 until 11:00 a.m.; afternoon classes are from 12:00 to 3:00 p.m.

Grades 1 and 2	8:00 A.M. - 2:50 P.M
Grade 3	8:00 A.M. - 3:20 P.M
Grades 4, 5 and 6	8:00 A.M. - 3:50 P.M

Faculty members are required to use the electronic device for logging in and out every school day.

5.3 SUBJECT SYLLABI

Course outlines for all subjects offered in the division are on file with the Principal. All syllabi must be prepared before the start of the school year, and course outline which needs to be updated and revised must require the approval of the Principal. Each syllabus must be cautiously planned so as the scope of each subject must be carefully integrated into the coverage of the entire discipline.

Each subject syllabus must contain the following: vision, mission of the University, the program educational objectives, the institutional, student and subject learning outcomes, the title, description, code and placement of the subject, the subject outline which includes timeframe, topic or content, teaching and learning activity, assessment and evaluation, methodology, subject requirements, textbook and references including print and non-print resources, faculty who prepared the syllabus and who approved it and the date of effectivity.

Textbook and references shall conform to the five-year copyright requirement.

Review of syllabi shall be done at the end of each school year to ensure that all defined competencies are implemented and evaluated.

5.4 TEXTBOOKS

All subjects in the Elementary School Division shall have officially adopted textbooks. The division has its own textbook committee whose members are assigned by the Principal. The textbook committee shall be responsible for reviewing new textbooks and those currently used, and for recommending their adoption or revisions if any. The University Librarian is the chairperson for this committee and coordinates with textbook publishers to request for evaluation copies of proposed textbooks. Recommended textbooks by the committee and by the Principal shall be adopted as soon as they have fulfilled the requirements set, endorsed by the Vice President for Academic Affairs (VPAC) and formally approved by the University President.

In the selection of textbooks, preference is given to inexpensive and/or locally printed textbooks, and content must match or parallel the course outline in the syllabus/curriculum of the subject. Changes in textbooks shall be made at least one semester in advance.

As a general rule, no changes in the selection of textbooks may be made, except under the following conditions: (1) where the textbook has been in use for at least three school years; (2) where the textbook is no longer available in sufficient quality or is out of print; (3) where the textbook has been supplanted due to a substantial price difference in favor of a new and equally acceptable textbook; and (4) where the textbook has been used for one year and found to be grossly inadequate; or (5) copyright date does not fall within the five year recency.

Faculty members using the adopted textbooks shall submit their concerns on the textbooks like inconsistencies, poor concept presentations, inadequacies, obsolete data, wrong spelling, and other concerns, to their respective Grade Level Chair.

5.5 CLASSROOM MANAGEMENT

5.5.1 Admission and Enrolment Permits

On the first day of class, the faculty shall check the Enrolment Permit of students against the Class List. No student shall be admitted if not included in the class list.

5.5.2 Student Attendance and Absences

Regularity of attendance is required in all classes. However, attendance and punctuality should be treated as matters of discipline and not as factors affecting scholarship ratings. The class adviser shall provide clear information to students and parents regarding attendance requirements and the consequences of unsatisfactory attendance. The teacher shall undertake all reasonable measures to contact parents promptly and within two school days of an unexplained absence occurring. Furthermore, class advisers are responsible for ensuring that accurate attendance records of all their students are maintained. Attendance registers must be available for inspection during school hours by grade level chairs or school administrators.

Student shall be excused for not attending a school or school-related activity if the school has been notified by the parent or guardian. The student shall not be excused if there is no valid reason provided for the absence.

Absences of students during special holidays or activities relative to their religion shall be allowed provided the permission of the faculty, and the Principal is sought.

A student who has been absent shall be required to present a letter of explanation from his/her parent or guardian or to bring them to school for a short conference with the section adviser or guidance counselor as the case may be. Then, the student shall be required to secure an Excuse Slip from the office of the Principal after submitting their Excuse Letter/pertinent document to be able to attend their classes again.

Students shall be required to complete make-up work in accordance with administrative regulations or will receive no credit for incomplete work. If a student has accumulated unexcused absences or tardiness, the faculty may decide not to allow make-up work.

A student who incurs absences of more than twenty percent (20%) of the prescribed number of class during the school year shall be given a failing grade. The Principal may at his/her discretion and in the individual case exempt a student who exceeds the 20% limit for reasons considered valid and acceptable to the University. Such discretion shall not excuse the student concerned from responsibility in keeping up with lesson assignments and taking examinations where indicated.

5.5.3 Medium of Instruction

The medium of instruction in all classes is English, except for classes in Filipino and Mother Tongue.

5.5.4 Classroom Discipline

A faculty member is expected to maintain discipline in the classroom. A noisy or inattentive class reflects on the ability, the character, and personality of the faculty member.

No faculty member should inflict corporal punishment on offending students; nor should he/she make a deduction in their scholastic ratings for acts that are clearly not manifestations of poor scholarship.

5.5.5 Substitute Teacher

The University discourages the use of substitutes for the faculty except in an urgent and unavoidable situation.

A substitute teacher is one who handles a class assigned to a faculty as a result of the latter's being unable to meet his/her class, whether it be for a single class period or longer. In case a faculty is absent, a substitute shall be assigned by the grade level chair and approved by the Principal.

Faculty substitutes may only be paid for the substitution if they exceed the 360 minutes multiplied by the number of contact days in a given school year.

5.6 EXAMINATION

5.6.1 Schedule of Examinations

The Elementary School division has nine monthly periodical examinations throughout the school year, the ninth monthly periodical examinations serving as the final examinations. The monthly periodical examinations are scheduled as much as possible during the first half of the month.

5.6.2 Preparation of Examination Questions

The coverage of the exams shall be based on the topics covered prior to the exam date and is measured by the table of specifications. All examination questions shall be reproduced in advance. All examination questions should be submitted to the Grade Level Chair between 5 to 10 working days before the examination date for checking, approval, and reproduction.

After approval, the examination questionnaires shall be sent to the Administrative and

Human Resource Office for reproduction at least five days before the examination. The reproduced examinations shall be picked up by the Principal's staff two days before the exams.

The examination shall be released to the faculty member concerned on the day of the scheduled exams.

5.6.3 Exception List

Examinations shall only be given to students whose names are not included in the Exception List.

Special exams shall be given a week after the regular examinations for students with valid reasons for missing the regular examinations.

5.6.4 Supervision of Examination

Faculty members shall be present in the assigned classroom during the examination period to supervise the exams and to answer questions which may be raised by the students.

5.7 GRADES

5.7.1 General Principles of Grading

The final grade or rating given to a student should be based solely on his/her scholastic performance.

Any addition or diminution to the grade in a subject for co-curricular activities, attendance, or misconduct shall not be allowed, except as may otherwise provided for in an appropriate issuance or publication and, provided, further, that such adjustment is relevant to the subject content and requirements.

The assessment process shall be holistic, with emphasis on the formative or developmental purpose of quality assuring student learning. It is also standards-based as it seeks to ensure that teachers shall teach to the standard, and students shall strive to meet or even exceed the standards. The student's attainment of the standard in terms of content and performance is, therefore, critical evidence of learning demonstrated by the end of the school year.

5.7.2 Grading System

5.7.2.1 Grading Periods

The school year is divided into four quarterly grading periods, with nine monthly examinations. Each grading period covers the span between two monthly/quarterly examinations.

<u>Grading Periods (4)</u>	<u>Monthly Examinations (9)</u>
First quarter	(1) July monthly
	(2) August quarterly
Second quarter	(3) September monthly
	(4) October quarterly

Third quarter	(5) November monthly
	(6) December quarterly
Fourth quarter	(7) January monthly
	(8) February monthly
	(9) March Finals

In effect, there are two grades given at the end of any current quarter: (1) the first is the quarterly grade for student performance during the current quarter alone and; (2) and the second is the cumulative grade at the end of the current quarter, taking into consideration student performance in the preceding quarters.

5.7.2.2 Grading Standards

The Elementary School shall use the percentile system of grading, with 100% as the highest possible grade, and 60% as the lowest posted grade. The lowest passing grade is 75%. A cumulative system of grading is used, with the examination in the last grading period being given a weight greater than the previous grading periods.

The quarterly grade is obtained in accordance with the following components and relative weights: a weight of 40 percent is given for the monthly (15 percent) and quarterly (25 percent) examinations given during the quarter. The balance of 60% will be obtained from the class work, which generally contains written works and performance/product tasks.

5.7.2.3 Descriptor and Grading Scale

The performance of pupils shall be described based on the following grading scale:

Outstanding	90-100	Passed
Very Satisfactory	85-89	Passed
Satisfactory	80-84	Passed
Fairly Satisfaction	75-79	Passed
Did not Meet Expectations	Below 75	Failed

5.7.2.4 Promotion and Retention

A general final grade of 75% is required for promotion to the next grade level. A pupil who did not meet expectations in not more than two learning areas must pass remedial classes for subjects with failing mark to be promoted to the next grade level. Otherwise, the pupil is retained in the same grade level.

5.7.3 Deadlines and Posting of Grade Reports

A system-generated Grading Sheet is available a few weeks after the beginning of classes containing the official list of enrolled students in each section. The faculty members shall follow the prescribed schedule of submission of students' quarterly grades.

5.8 FIELD TRIPS

The University shall encourage and stimulate the participation of students in co-curricular

activities that will help enrich and supplement their academic performance. Field Trip is defined as an educational activity involving the travel of students and supervising faculty outside the school campus, which is of shorter duration lasting only for one day.

Itinerary of the educational tours/field trips shall be designed based on the curricular requirements.

There shall be one faculty/adviser on board per bus to accompany each group of students.

Students joining an educational tour/field trip shall be required to submit a waiver (notarized if needed) signed by the parent/guardian and submitted to the class adviser/grade level Chair in-charge of the activity. Students who are unable to join the educational field trip shall be given a parallel school activity aimed at providing similar acquisition of knowledge of the required practical exposures.

Learners with special needs such as Persons with Disabilities (PWD) shall be given due consideration in the requirement of joining the field trips.

Students shall submit an evaluation report after each tour/trip.

6. CO-CURRICULAR ACTIVITIES

Co-curricular activities and organizations related to different subject areas shall be organized to enhance the interest of the students, to improve their skills in various fields, and to promote harmonious social relationships in the school campus.

Literary and musical programs are held from time to time, and maximum student participation shall be stressed.

The annual intramural league is an important component of Physical Education and shall be designed in a competitive manner in several group sports.

6.1.2 Election of Officers

The election of officers shall take place within 60 days after the beginning of classes for the school year with the supervision of the faculty advisers. No officer may be elected who does not possess good academic standing.

6.1.3 Achievement Reports

All organizations shall be required to submit an achievement report at the end of each school year.

6.1.4 Adviserships

It is the policy of the University to foster properly organized and supervised co-curricular students activities, to develop leadership qualities, a sense of responsibility, and a social sense among students. For these reasons, faculty Advisership is considered to be a significant function of faculty members.

Every approved student organization shall be assigned at least one faculty adviser.

The duties of advisers involve the guidance of the student organization, as well as the approval of the schedule of activities. As faculty adviser, the faculty member is expected to attend all meetings and activities of the student organization, especially the organizational meeting during which elections are usually held, and the induction affair, if there be one.

6.1.5 Scheduling of Activities

The activities of student organizations must be scheduled only with the prior approval of the Principal. The meetings of the student organization should be scheduled such that they will not conflict with the class schedule of the faculty adviser; however, if such an arrangement should not be possible for any specific meeting, the faculty member should seek the permission of the grade level chair to attend the meeting, and the Principal should be promptly notified of the circumstances.

6.1.6 Use of Facilities

Any meeting or activity requiring the use of any University facilities such as the auditorium, gym, classrooms, quadrangle, school vehicle, public address system, multi-media projectors, and other equipment or the excuse of students from classes shall be calendared with the Office of the Principal.

Any misrepresentation of facts in any of the AHR forms filled out and signed by the faculty, especially the application for employment form, shall be considered sufficient grounds for immediate termination of services.

7.3.3 End of Appointment

Faculty appointments, other than those of faculty enjoying tenure, terminate normally by the expiration of the specified length of the appointment in the case of term appointments. Appointments may be terminated before their expiration:

- (a) By the President, upon the recommendation of the Principal, for causes such as: (1) serious misconduct or willful disobedience by the employee of the lawful orders of his/her employer or representative in connection with his/her work; (2) gross and habitual neglect by the employee of his/her duties; (3) fraud and willful breach by the employee of the trust reposed in him by his/her employer or duly authorized representative; (4) commission of a crime or offense by the employee against the person of his/her employer or any immediate member of his/her family or his duly authorized representative; and (5) other cause analogous to the foregoing after due process was observed.

In addition, faculty members entitled to avail of the benefits under this paragraph shall be allowed to pay their miscellaneous and other related school fees through salary deduction as prescribed by the University, provided that the minimum payment on such fees, also as prescribed by the University, is made upon enrolment.

No reduction will be allowed for enrolment in the nursing program by faculty members, for the time being, since the nursing program is considered an exit program, that is, a course in which the graduates will not be of any use within the University.

10.2.2 Faculty Scholarships

Every year the University may grant a number of full scholarships with full pay to selected faculty members in the various divisions.

These faculty scholarships permit an entire year with full pay within which to pursue graduate studies leading to a degree in a field of high priority for development by the University; in return, such faculty scholars are bound to render teaching service at the University for a stipulated minimum number of years upon completion of their graduate studies.

A memorandum is issued annually around January indicating the terms and conditions of such faculty scholarships; the scholars themselves are recommended by the division heads.

10.2.3 Medical and Dental Care

The University maintains adequately equipped and ably staffed Medical & Dental Clinic. Primary health care for the faculty is provided through the free use of its clinic, including free emergency medicines and the services of its physician, dentist, and nurses, provided that such services are availed of only within the campus of the University during regular clinic hours.

In the computation of total retirement benefits as provided above, the University further assures that retirement benefit required under RA7641 (The Retirement Pay Law) shall be met.

Early retirement may be considered by the University on a case to case basis on merits if a covered faculty has rendered at least 25 years of continuous service. The Union shall have the prerogative to seek recourse through the grievance procedures should an application for early retirement be disapproved by the University based on the findings of lack of merit.

Any employee retiring under the early retirement plan shall be entitled to such benefits as may have been accumulated under the PERAA plan.

The University shall assist the immediate family of a deceased faculty as stipulated in the existing CBA.

11. FACULTY CLASSIFICATION, EVALUATION, AND PROMOTION

11.1 CLASSIFICATION

All regular faculty members shall be provided academic rank based on approved guidelines. The academic rank of a faculty is a professional standing in relation to other University faculty. It indicates a person's academic status. It is not the title of their teaching position. It is a permanent status until promoted to another rank.

Regular faculty members who wish to be reclassified shall submit a written request for reclassification (including pertinent documents) addressed to the Principal on or before July 31 of every year. All approved promotions to the next rank shall take effect August 1 of the same year. Request for re-evaluation or reconsideration will be entertained within 30 calendar days after the results of the classification, or the assignment of points is shown to the faculty concerned.

Promotion from one rank to another shall not be automatic. Any job classification or reclassification shall be recommendatory in nature and that the final approval of any changes shall be strictly a prerogative of Management.

Regular faculty members of the Basic Education divisions shall be ranked as either:

Teachers A, B, C, D, E and F
Master Teachers A and B

11.2 FACULTY PERFORMANCE EVALUATION

Performance of each faculty shall be evaluated at least once a year by his/her immediate supervisors subject to review by the Principal. This shall be done using the University's Performance Appraisal (PA) instrument. The PA instrument contains two distinct parts. Part I is a comprehensive enumeration of the functional skills consisting of key results areas (KRAs) and key performance indicators (KPIs), which are their primary job responsibilities. Foremost among these is the instructional competencies, which include classroom visits.

At least six classroom visits during the school year shall be made by the Grade Level Chair/Subject Coordinator and the Principal, using Classroom Observation Form for the purpose. The report on classroom visits shall show actual observations in the classroom only. The criteria for classroom observations are goals (55%), the content of work (25%), and classroom management and personal appearance (20%). The classroom visits are undertaken basically to determine the classroom handling qualities of the individual faculty, while the performance evaluation covers a much wider range. The classroom visits shall take place earlier in the school year and form an input into the performance evaluation.

Part II contains rubrics of universal competencies that define acceptable behaviors inside and outside of the classroom.

Overall and individual skill and competency performance ratings shall be based on the following five (5) descriptors:

Outstanding (4.75-5.00). This rating is awarded when the employee's performance is exceptional and deserves special commendation.

Exceeds Job Expectations (3.75-4.74). This rating is awarded when the employee's performance is excellent but short of being outstanding.

Meets Job Expectations (2.75-3.74). This rating is awarded when the employee meets the standard or the ordinary requirements of the duties of his position.

Needs Improvement (1.75-2.74). This rating is awarded when the employee fails to meet the requirements of the duties of his position.

Unsatisfactory (0.00-1.74). This rating is awarded when the performance of the employee is beyond remediation.

These findings and recommendations shall be reviewed and signed by the Principal, as applicable.

The results of the individual evaluations are submitted in time for implementation of merit increases preferably by September 15, or the payroll period beginning September 1.

11.3 MERIT INCREASES

Merit increases may be given to faculty who has shown exemplary performance during the period under review.

As a general rule, one-third of the total faculty who garnered the highest rating shall be recommended for a merit increase. Faculty who has received three years of consecutive merit increases

shall be disqualified to receive such on the fourth consecutive year. However, he may be subsequently considered in the following year, if qualified.

A separate evaluation of the Grade Level Chair is undertaken by the Principal.

The President reserves the right to review, and where necessary, revise the recommendations submitted to him/her for his/her approval.

11.4 PROMOTION

Promotion is based on qualification, expertise, and performance as determined by, and is the prerogative of Management. Recommendations for promotion shall include a written evaluation of the faculty member's work, together with reasons for favoring promotion, as prepared by the Principal and submitted to the President. Final approval rests with the President.

12. DEPARTMENT

Faculty members shall strive to maintain harmonious relations among themselves and shall avoid personal conflicts as this is indicative of poor character.

To merit reasonable social recognition, it shall be the duty of a faculty member to keep himself socially accepted and morally upright by avoiding sloppy dress, drunkenness, and other undesirable, visually manifested practices.

12.1 IDENTIFICATION CARDS

All faculty members will be required to wear ID cards at all times around their necks while within the school premises. These ID cards will be replaced, preferably every three school years.

12.2 CARE OF SCHOOL PROPERTY

Faculty members will readily appreciate the importance of maintaining school property in good operational condition. For this reason, they shall endeavor to exercise due diligence in this respect and to encourage others under their supervision, whether University staff or students, to do likewise. Thus, there shall be two dimensions involved. The first is the need for ensuring that school property, particularly specialized equipment used by them, shall be carefully handled and stored. The second is the obverse, namely, that school equipment under their acknowledged responsibility shall be treated with similar care and security, and that they shall be responsible for any damage or loss for such property. In the same manner, faculty members are expected to wear appropriate footwear for a professional setting.

12.3 DRESS REQUIREMENTS

Every school year, the University supplies the elementary faculty with uniforms free of charge. Teachers shall wear the uniform prescribed for them. Paydays are considered free days when uniforms need not be worn. Faculty members are not allowed to wear jeans, t-shirts while handling classes. In the same manner, faculty members are expected to wear appropriate footwear for a professional setting.

It is the policy of the University to maintain a formal system of discipline applicable to the faculty. This policy will ensure that rules of the University and accepted standards of faculty conduct are adhered to and discipline, when deemed necessary, is equitably and uniformly administered.

Complaints and charges against a faculty of the University, ranging from simple misbehaviors to much more serious allegations, such as financial abuse, grading or other academic irregularities, or sexual misconduct are taken very seriously by the University be it an accusation brought up by some person whether on the University staff or otherwise, or discovered by the University authorities themselves, and makes every effort to determine if there has been in fact a breach of University regulations by faculty.

AHR shall be the administrative unit of the University that shall be involved. However, the initiation of any formal investigation, the determination of the extent of guilt and the nature of the penalties shall always require the concurrence of the University President.

In all cases, the fact-finding investigation shall be undertaken promptly, with a view to establishing whether further administrative action against the person accused appears in order, without prejudice to possible civil or criminal action being undertaken in addition. Where the investigating group requires the participation of a certain person in accordance with appropriate law, then the law on such matter shall, of course, be followed.

13.1 FACULTY OUTSIDE ACTIVITY

As a general rule, faculty members are not prohibited from engaging in any outside activity provided such activity is not incompatible with their teaching commitments, nor does it interfere with their teaching activities.
